Sometimes sessions may be arranged for a specific grade level, building or group of staff. If you are not viewing all the sessions available to your building, grade, etc., you may need to update your user profile.

Update your User Profile

Minimizing the amount of checkboxes selected in your profile maximizes the amount of sessions you can see in our district catalog.

EXAMPLE - A staff member teaches 6th grade at French Creek - User Profile should show under "Building" > "East Coventry", under "Department" > "Elementary", under "Grade" > "Grade 6".

Check Your User Profile

Selecting building, one department, and one grade (if applicable) will allow you to view more options in the district catalog.
